RE: Joseph E. Odencrantz Resignation from the REMEDIATION Editorial Advi... (41.3 KB)
Outlook item

Dear Dr. Odencrantz,

Padmaja informed me that you were seeking a response to your resignation email. I did reply to your email on the 17th December (attached) after it was passed on to me, hopefully you received my acknowledgment. We have removed your name from the journal's Editorial Board Page. As I am the Associate Publisher for *Remediation*, I would be the appropriate person to speak further about your concerns. However, I don't know if this would be deemed necessary as the selection process for inviting Editorial Board Members to Symposiums is discrete to the Editor-in-Chief. The criteria for selection is based on subject expertise, activity within the subject area and published articles/participation in conferences regarding that subject area.

I have been on the journal since October 2024, so I don't have any insight into your accusations from 2019/2021, but if you would like to chat about this further with me, I will happily do so.

I do apologise for the clear distress this situation has caused you.

Best wishes,

Jade Burton
